"WE ENTERED THE 'MODERN' GRAND SOLAR MINIMUM ON JUNE 8, 2020"

ICE AGE

So far, the Stats look similar to the 1700 Solar Minimum Events, but unknowns include increasing Volcanic Activity, Movement of Earth's Magnetic Poles which causes cold Arctic Air to Ooze into the lower latitudes, Increased Strength Cosmic Radiation, and very important, we need to know the Net Reduction in Solar Irradiance reaching Earth after 40 years spraying 20 million metric tons/yr of micro/nano reflective particulates like Aluminum, Mercury and other nasty shit like Sulfuric Acid (acid rain) into the atmosphere, knowing full well Global Warming was total Psycho-Sociopathic Crapola. If that process was too efficient to allow subsistence now, we'd probably have to reverse engineer the sprayers into electrostatic traps to funnel the noxious shit back into the bottles...

The Epic Hubris and Utter Insanity or Pure Unabashed Idiocy of these demonic monstrosities, who Hard Wired a Thermostat into our Atmosphere with no 'Turn Up The Heat Switch' while they knew there'd be an Existential need to do just that, soon after, Disgusts the Living Shit out of us, and Disgusting as it may be, we hope you're likewise Disgusted...

NOW STEP INTO THE EXISTENTIAL WHIRLWIND

Nigh on 50 years ago, an Oil Industry Guru, King Hubbert, revealed his PEAK OIL Theory he'd concluded from observing the Economic and Functional Life of a multitude of wells he'd worked on, and he emphatically counseled the World, we were actually only 2 or 3 yrs at the most away from Exponential Oil Extinction, a Death Knell to King Oil who had just Bound The World into Hopeless Cheap Oil Addiction, and was Drooling to start the Real Exploitation... we're sure you can imagine the Narrative Machine was set to Full Denial... while the True Confession of Hubbert's Absolute Truth was evident in the immediate Wildcat Exploration of every Global Nook & Cranny that might have a few drops, where the Economic Feasibility of Extraction and Delivery were moot as all costs and profits would be taxpayer subsidized as 'Emergency Countermeasures'... (2020 Oil Subsidies = \$5.3 Trillion) This revelation also sparked the Neo-Commen's plan to Plunder all the World's Oil Reserves for exclusive use by the Supreme Regime and its Butt Feeding Minions, which a few years later caused the Great Oil Embargo against the Supreme 'Satan' Regime, which presented those of us present with an unforgettable Real View what little or no gas looks and feels like. A third Oblivion Vector was spawned by Peak Oil - the Koch brothers Pipeline + Canadian Shale FRACKING, a process which together destroyed so much infinitely more existentially valuable Water, they'd originally planned to Drain The Great Lakes Commons (they may actually be doing that), to maintain hegemony, not to help 'Meek' Gaians Thrive or even Survive. This Event Marked PEAK WATER as Fracking spread across the Globe Devouring Pristine Existential Water and Shitting Dirty Oil, EarthQuakes and EPA SuperFund Continents...

King told the Industry: It's Fatally Incorrect to claim the Reserves Available include the Full Estimated Volume where his observations found As you Pump the Reserve Down you hit a Peak Pumping Point: where the Oil gets like asphalt and won't suck thru the pump. He strongly advised not to proceed to Fracking where every gallon recovered represents a Genocidal Permanent Destruction of Existessential Water... Not Only did the Global Unintelligencia totally ignore King's Advice, They_{et al} actually Aggravated the Assault by Rabid Adherence to the CrackHeaded Fanaticism: Rapacious Growth, With No Global Catastrophic Side Effects Unless They_{et al} Say So (they never did), which required the Global Pedal To The Metal the entire 50 yrs... Raise Your Hand if you Truly Don't Think All We Got Left Is Stinkin STINK...

So Now We're At PEAK LIFE and Its Potential Deep Dukkha Else WE WAGE PEACE NOW Bringing Existential Sukha

SAD GRETA'S DELUSION

If CO₂ COULD PRODUCE HEAT without Chemical Reaction or State Transition (Liquid ↔ Gas - used in AC), this Ice Age would truly be a proverbial Peace of Cake. Our Survival would solely wrest on cuddling under a blanket with a couple balloons. After exhaustive triple blind experiments, all of which ended popping the balloons and turning the heater back on, we scientifically deduced: it just ain't happening, in the Balloons nor in the Atmosphere... We gladly welcome verification from the Gaian Community.

IT'S ABOUT OUR EXTRACTABLE GLOBAL ENERGY RESERVOIR BEING EMPTY - ON FUMES, AND WILL THE REMAINING FUMES BE USED TO ASSURE MAXIMUM GAIANS LIVE A SATISFYING AND COMFORTABLE LIFE... GAIAN PERMA LIFE IS THE ONLY MORAL AND ETHICAL PATH WE HAVE BEFORE US, THE ONLY JUSTIFIABLE DEVIATION WILL BE THE ABSOLUTE MINIMUM COST TO EXISTENTIAL RESOURCES NEEDED TO DE-ENERGIZE THE MYRIAD OF ANTI-EXISTENTIAL SYSTEMS AND PROCESSES WE'VE BEEN TRAINED LIKE PAVLOVIAN DOGS TO ACCEPT AS NORMAL, WHEN IN REALITY, THEY BEAR AS MUCH SIMILARITY TO NORMAL AS ABNORMAL, AND EVERY ONE IS REALLY STUPID SHIT THAT NEVER SHOULD'VE BEEN PLACED IN PLACE THE FIRST PLACE... AND MUST BE DISPLACED NOW FOREVER... STAND DOWN - SHUT DOWN - TOP DOWN DISARM - DE-WEAPONIZE - RE-PURPOSE - DISASSEMBLE - SAFELY NEUTRALIZE DANGERS - CLEAN UP - MOVE DISPLACED GAIANS TO NATIVE HABITATS - MOVE ENDANGERED GAIANS TO SAFETY - DECENTRALIZE - SYNERGIZE OUR DIVERSITY - REPLANT...

CEASE and EXIST

We have NO FUTURE Until We Immediately Shut This Global Mutually Assured Destruction System Down, Destroy all functional Hardware & Software such that no one can reuse it for the same purpose, and Store Radioactive Materials in such a way no outside Temperature or other Controls will Ever be needed to keep it stable... When technology won't exist... Time Is Of The Existential.

Existential Peace vs ETERNAL WAR & CONFLICT ...

Once We've Dealt with the above WORLD BREAKER, We'll have to Focus Our Entire Unified Conscious Into One Mind and Spirit to Visualize then Enact Our Last Chance at Survival, not just the 'Walking Dead' kind, but one We can honestly say is 1000 x Better than how We're Quazi-living Now. So, regarding the Eternal War Shit, We have less than a New York Nanosecond for ALL Parties to Stand Down, ShutDown, Top Down Disarm, Destroy All Weapons and Supports, Cancel Sanctions and Boycotts, De-Weaponize Equipment that can be Re-Purposed, and Gaians need to Re-Purpose Yourself into Peace Positions.

Except for Existential Make-Ready, any Project that takes more than an Insignificant Energy amount to run should be excised as self evident futile: E-Cars, E-Commerce, BitCoin_{et al}, Covid Tracking, 'Smart' devices, Space, Government, Computers, Wall Street, Schools, 5G, Infrastructure, DRILLING, MINING, REFINING... **EVERYTHING THAT REQUIRES ELECTRICITY IS RIGHT NOW OBSOLETE** HUMAN POWER is all we got... Good Thing cuz our Food > Energy Efficiency is 98% VPH *veggies/hr* Time is Super Critical as We have to DESIGN & CONSTRUCT A NEW COVENANT as well as LIVE IT for as long as possible (To shake out the Bugs and Learn) BEFORE the Lights Go Dark... It'd be good to have Several Years of Perma Planting & Harvesting to Feel the Divine Rhythm.

Neo Paleolithic Noosphere Evolution

Existentially, You might well describe the Herculean Tasks We Must Undertake In Our Immediate Present As: Abruptly Throwing the Entire Northern Hemisphere into a Steep-but Controlled Dive into a Functional Time Before the Stone Age or the Fine Age (once we run out of reclaimed Bioposed BICs) and during that LightSpeed Trip Back To Our Future Past, We must relearn the Neanderthal Way albeit Added with Organic Perma-Culture Techniques.

Our Primal Self-Sovereignty and Its Inherent Unlimited Liability for Harms by Our Malicious Intent or Negligence Against Other Gaians and/or the Gaian Commons which are Equally 100% Owned and Controlled by Every Gaian, thus any Act with even the Possibility must have a Vast Majority of Informed Consent (which can be retracted at Sovereign Will without reason or consequence) and any such Act can be Compelled or Mandated Only against Consenters where those Aggravated Assaults and Gaiacides were an Expressed part of the Consent.

Every Owner, Stockholder, Patent holder, Board of Directors, Employee or Proxy of an Offending Government Agency, Private/Public Corporation/ Foundation... is Equally 100% Liable for Payment of Damages from their Personal Estates, including Liens on future assets, and they also bear Civil and Criminal Liability for Frauds, Aggravated Assaults & Batteries, Genocides and Other Crimes Against Gaianity... LIABILITY CHAIN

HOMELESS & STARVING: Twice in the last decade BigBrk_{et al} have Intentionally Created Bogus Housing/Mortgage Junkalloons based on Void Contracts (making an Entry in the ThinAire Ledger doesn't make Good & Valuable Consideration), Severely UnderRisked Buyers, and Rapacious VR Interest (bait & switch), then at BigBrk_{et al}'s Earliest Convenience, BigBrk_{et al} Globally Popped them Junkalloons, Foreclosed, Evicted, and Transferred Title to BigBrk_{et al}, then BigBrk_{et al} Billed the Gov't for the Unpaid Balance, which the Gov't had to 'Pay' (too-big-to-fail) so Gov't applied to BigBrk_{et al} for a VRI (8.5% now) Loan, which was added to the Nat'l Debt to BigBrk_{et al}, where it'll Compound Interest Forever... and BigBrk_{et al} is Free to Loop the same Properties thru the Genocidal Scam until Kingdom-Come...

SOLUTION: Let's Declare Right-Now to be Gaia-Come, Run BigBrk_{et al} and Faithful Minion thru the above Liability Chain all the way down these Inbred mostly BrainDead Family Lines, and move ALL these Ill Begotten Assets to Global Commons where they can be Fairly Dispersed to the Homeless via Lifetime Lease-Hold Contracts @ the Cost of a Simple Promise to Follow Organic PermaCulture Methods... (Anastasia has successful long working models)

In the above Equity Action, Nat'l Debt for Profit Zeroed as Liquidated Damages (Return of Stolen Property) and the Entire Concept is now Extinct, Likewise, FOR PROFIT: Gov't, Health (Healthy Patients = Loss), UnSustainable Growth, Competition, Slavery, Money, All Existential Goods & Services, Crashing the Gaian Community... In Essence, We've Extincted Profit Itself and we can't see any downside...

In the Noosphere Epoch, All Transactions are towards establishing and maintaining a Durable, Peaceful, Sustainable Habitat, where all Gaians, in all Our Infinite Diversity, will Synergize with Gaia Herself and Wake a long sleeping (since Babe) Empathy Network, it's been told. We can Hear All our Voices Expressed as One Mind, and We can accomplish Anything We put Our Mind To.

With All that really Stupid Shit offline & rotting in Hell, it's Easy to See This Transition would be a vast upgrade to most our 'Lives of Quiet Desperation'. Together, with no Shriveling Demonic Asphale's Jackboots on our Sovereign Necks, We'd be Regrowing Eden in all our Yards, Vacant Lots, and Community Gardens, RePlanting our Clearcut Primval Forests, and even Reaving our Deserts... We can't Imagine any Life more exciting, Interesting, Challenging or Fulfilling... Even With Electric... Can You? To us, This IS Our Natural Niche and now we can put all our Energy into It's Sustainment...

Trying to keep Our Heads & Bales above water on \$6.57 or less a day, while watching \$10s of Trillions go to the Demons directly responsible for Starving 400M + Gaians to Death this year, has made it crystal clear: these Economies are Monopoly games where the oil baro goes to the owners (Rulers) not the Players. In the Gaian 'MakeReady' Economy, We're All Self Funders and Equal Owners of the Global Commons, and each Withdrawal from ThinAire will be an equal Self Investment toward Gaian Sustainability. In that Spirit, we'd suggest, as soon as possible, We make a Kick-Start-Grub-Stoke Withdrawal of \$20K = 25K Yen, Rubles... To Every Human Gaian, including those who haven't yet Starved to Death...

No Doubt, This Would be the First True Expression: **Of All The People, By All The People, For All The People...** And All of us Sovereign People will have our own hands on the Wheel Of Destiny that allows Ourselves, Our Families, Our Communities, and Our Critically Abused Gaia to Thrive, Hopefully Withstanding the Heinous Carnage We've Allowed Against All Gaians and Their Precious Commons, by Our Short Sighted Worship of Electra, with only 100 years of Resource to fill her collection box...

Grand Gaian Lights Out (L-O) MakeReady Bucket List (partial)

- DeCentralize Society into Self Sustaining Autonomous Communities
- Plant & Grow Existential Food & Benevire While Learning Organic PermaCulture as it Applies To Your Community
- Learn All Edible, Benicial, and otherwise useful Plants & Fungi that grow well in your area. **SAVE SEEDS**
- Practice while learning: All Arbor-Original Native Holistic Herbal, Physical & Spiritual Healing Methods
- ** Create Xtreme Simple Care Drawing/8 Fold Path Manuals of the above info... Make Eternally Durable Hard Copies for Each Community
- Refit All Wells with St Steel Hand Pump & Pipes - Drill To Max Depth -- No PVC --
- Drill More As Perma Culture Areas Defined
- Build HumanPower Drill Rigs
- Change Transport and Work Vehicles + Tools To Human Powered
- Extinct Manufacturers may change their tooling to help... These Will All Be Community Shared & Repaired
- ** Create Xtreme Simple Care Drawing/8 Fold Path Manuals of the above info... Make Eternally Durable Hard Copies for Each Community
- And Other NAN-5G Communications should be kept up as Long as Possible - After L-O it'll be Carrier Pigeons - If we haven't extincted them.
